SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Normal Operations	Normal Operations	Normal Operations

Coronavirus Disease 2019 (COVID-19)

The Cal OES State Operations Center (SOC) activated 03/02/20 at 0700 hours in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

SMARTER Plan

On February 17th Governor Newsom unveiled the SMARTER Plan as a path forward and the next phase of California's pandemic response. The plan emphasizes continued readiness, awareness and flexibility and helps ensure California can maintain its focus on communities that continue to be disproportionately impacted and stay prepared to swiftly and effectively respond to emerging COVID-19 variants and changing conditions.

WEATHER KEY POINTS

02/27/22 - 03/05/22

Sunday - Tuesday

- Another Santa Ana event will bring gusty offshore winds to portions of southern California Sunday night through Monday, with gusts up to 60 mph possible in prone locations near passes, canyons, and foothills
 - Gusts up to 50 mph are also possible Monday along the Colorado River Valley
- Rounds of higher waves will impact many coastal areas through Sunday, resulting in an increased risk for rip currents and possibly some minor overwash at times
- Temperatures will see a significant warming trend through midweek, with some areas across southern California warming back into the 80s
- Dry weather will continue for most of the state through Tuesday, though a few rounds of rainfall are expected across far northwest California

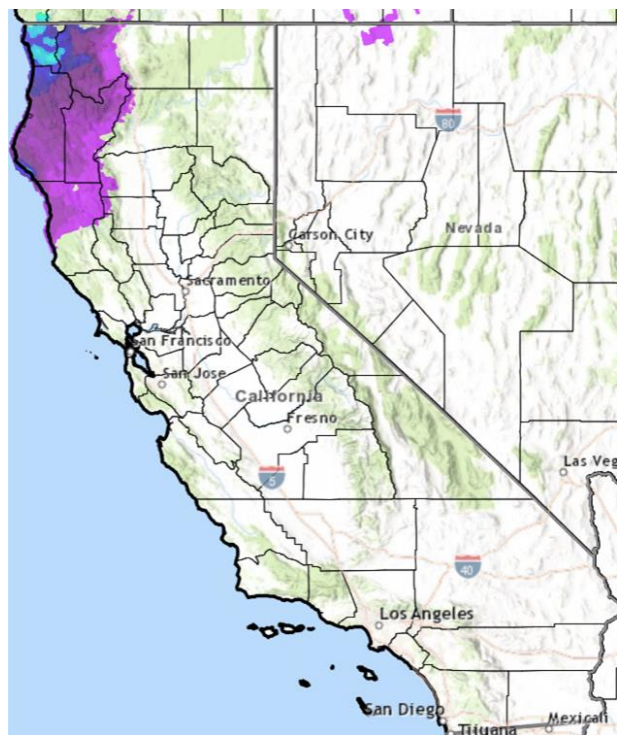

Wednesday - Saturday

- A cooler and wetter pattern is expected across California for the latter half of the week, especially across the northern two-thirds of the state
 - Generally light to locally moderate precipitation is expected
 - Accumulating snow is expected in the northern mountains, including the Sierra, with the heaviest precipitation currently expected on Wednesday and Thursday

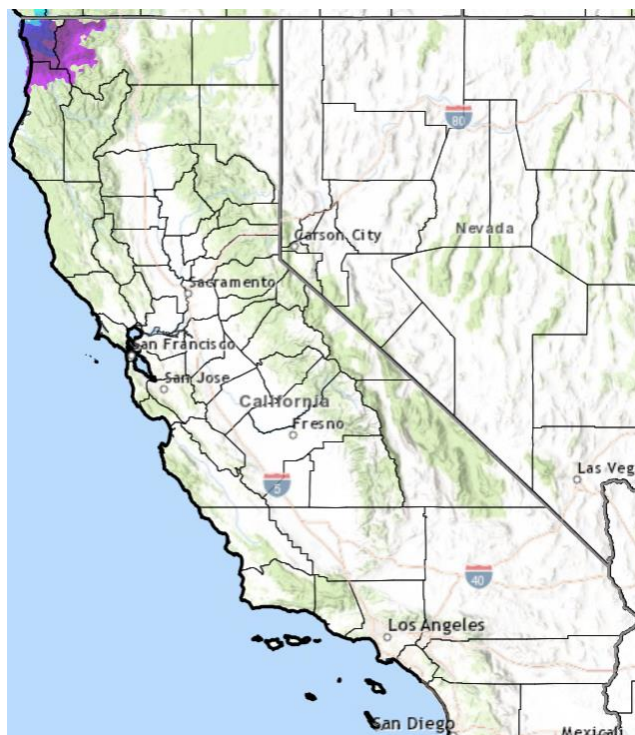

PRECIPITATION FORECAST

02/27/22 - 03/01/22

Sunday

Monday

Tuesday

Note: Forecast precipitation amounts are an average for any particular location. Thunderstorms may produce locally higher rainfall amounts.

Precipitation (inches)

WEATHER OUTLOOK

03/04/22 - 03/12/22

6-10 Day Outlook (March 4 - March 8)

Temperatures

- Below normal temperatures are favored statewide

Precipitation

- Below normal precipitation is favored statewide

8-14 Day Outlook (March 6 – March 12)

Temperatures

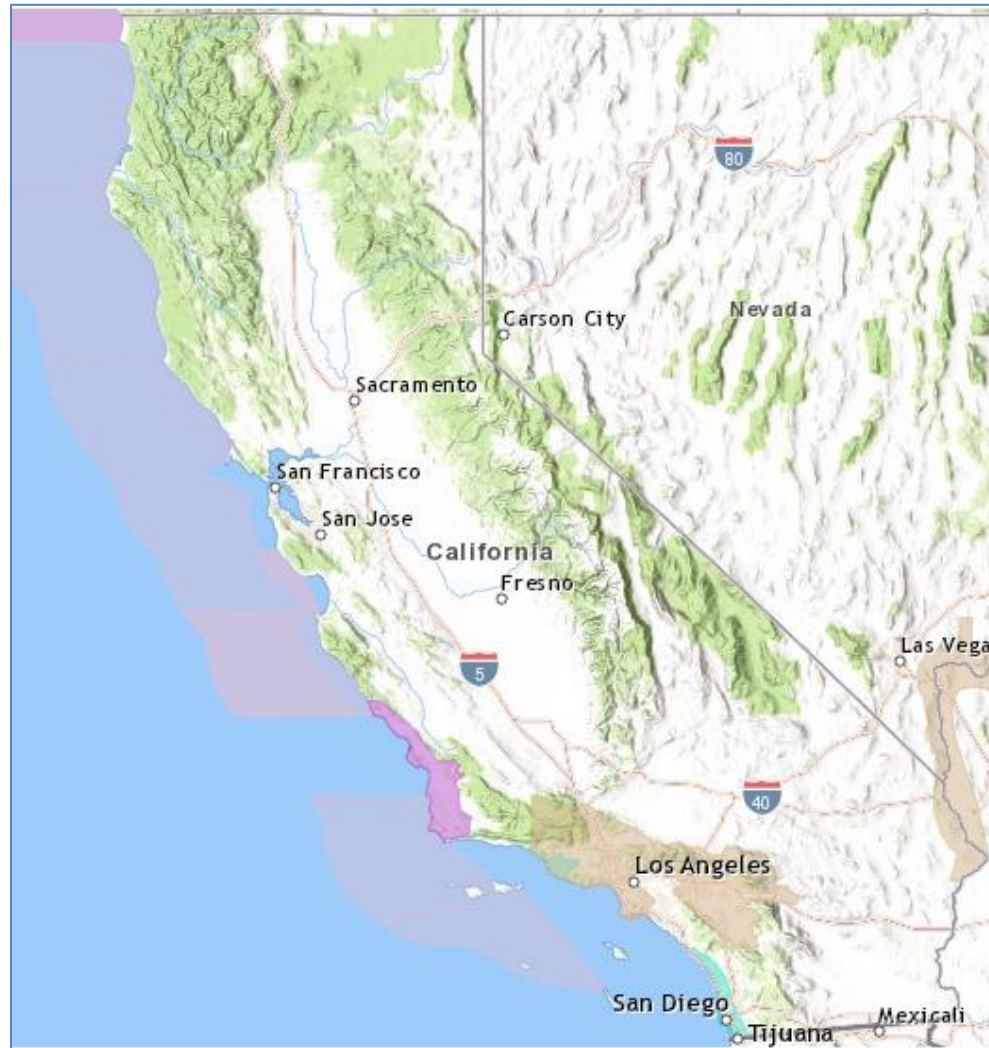

- Below normal temperatures are favored to continue statewide

Precipitation

- Below normal precipitation is again favored statewide
